SLATWALL GUITAR HANGERS WITH PATENTED SELF-LOCKING YOKE

- Quik Lok introduces a new series of slatwall guitar hangers incorporating an ingenious device that allows for a secure and space-saving way to hold and display any size electric/acoustic guitar and bass.
- When the guitar is placed into the stand yoke, the instrument's weight will automatically drive the lateral safety barriers incorporated in the yoke to engage. The safety barriers turn down to lock the guitar neck securely in place, preventing the instrument from accidentally falling off the wall. When the guitar is lifted from the stand the security barriers will simultaneously turn back to their original position to free the instrument.
- Durable, smooth rubberized padding on yoke protects guitars from scratches and will not mar finish.
- Hanger swivels to accommodate all headstock shapes
